Certain statements in this press release may constitute “forward-looking” statements. When used in this press release, such statements use words, including but not limited to, “may”, “will”, “expect”, “believe”, “plan”, “intend”, “anticipate” and other similar terminology. These forward-looking statements reflect the current expectations of the Fund’s management regarding future events but involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Fund, including the performance of, and distributable cash generated by, CanWel and Sodisco-Howden, on a consolidated basis, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Actual events could differ materially from those projected herein and depend on a number of factors. These factors include the risk that the Sodisco-Howden acquisition will not be integrated successfully; the risk that any cost savings and any synergies from the transaction may not be fully realized or may take longer to realize than expected; and disruption from the transaction making it more difficult to maintain relationships with customers, employees or suppliers. Additional risks and uncertainties include, among others: general economic and business conditions, product selling prices, commodity price fluctuations, information systems risk, interest rate changes, operating costs, and competitive conditions. These statements reflect management’s current expectations regarding future events and operating performance and speak only as of the date of this press release. Additional factors that could cause results to differ materially from those described in the forward-looking statements can be found in the periodic and other reports filed by the Fund with Canadian Securities Commissions and available on Sedar (<http://www.sedar.com>). The Fund does not undertake, and specifically disclaims, any obligation to update or revise any forward looking information, whether as a result of new information, future developments or otherwise.

Reference is also made to distributable cash of the Fund. This is a non-GAAP measure generally used by Canadian open-ended income funds as an indicator of financial performance. We define distributable cash as net earnings before depreciation, amortization, gain or loss on sale of fixed assets, provision for future income taxes, stock based compensation and after maintenance of business capital expenditure and contributions to any reserves the Board of Trustees deem to be reasonable and necessary for the operations of the Fund.
