

TimberCrest™ Premium Vinyl Siding

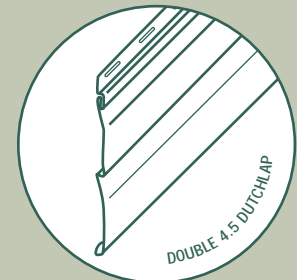

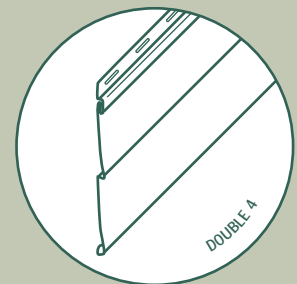

ENGINEERED FOR PERFORMANCE

Engineered for maximum performance and artistically designed to have a true-to-life cedar "look," TimberCrest™ premium vinyl siding is as durable as it is beautiful. Manufactured to exacting tolerances, the TimberCrest wood grain is molded from real rough cedar planks for breathtaking beauty. Available in a variety of colors, TimberCrest siding offers a high-profile, low-maintenance alternative to wood.

WHY TIMBERCREST SIDING?

- TimberCrest premium siding is **.046" thick**, which means outstanding impact resistance.
- True-to-life, **low-gloss rough cedar wood grain** appearance is molded from real wood.
- Our unique **LineLock™ self-aligning locking system** means quick and easy installation.
- Premium vinyl compounds and **UV inhibitors** promote long-term weatherability and color retention.
- TimberCrest siding's **3/4" profile height** adds rigidity for a straighter installed appearance.
- **Double-thick nail hem** provides windload resistance to 180 mph.
- Our **VaporVent™ weep hole system** helps channel condensed water vapor away from the siding.
- The TimberCrest siding's premium **color is consistent all the way through**, so painting is never needed.
- **Compatible accessories** are available to help you finish the job right.

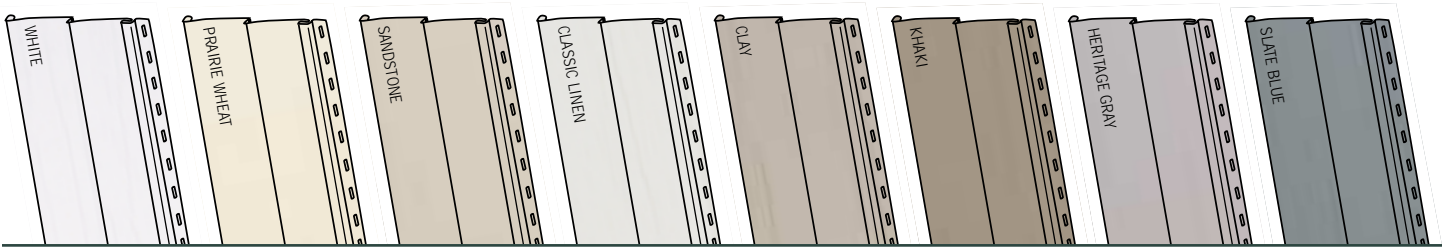

PROFILES
